
Introduction to HPLC Course- 1 day

0900-1100

Introduction to HPLC
Introduction to HPLC Equipment
Basic theory of HPLC
Basic HPLC terms defined

1115-1300

Preparing an HPLC for use
Introduction to HPLC Data Systems
Introduction to HPLC Columns

1400-1500

Introduction to modern HPLC Equipment
Applications of HPLC
Making up an accurate mobile phase and degassing
Sample Preparation
Use of UV-Vis detectors and RI Detectors

1515-1600

Introduction to Autosamplers
Basic precautions to avoid problems

1600-1700

Assessment and Discussion
